

Learn about the science, technical and legal aspects needed to run a crematory.

CREMATORY OPERATOR CERTIFICATION

WEDNESDAY, APRIL 25 - 8:30 A.M. TO 5:00 P.M.

Gupton-Jones College of Funeral Service / 5141 Snapfinger Woods Dr • Decatur, GA 30035

Sign-in begins at 8:00 a.m.; lunch included

APPROVED FOR A MAX OF 7.5 CE CREDIT HOURS

The ICCFA Crematory Operator Certification program is presented by ICCFA Cremation Counsel Poul Lemasters, Lemasters Consulting, and Larry Stuart, Jr., Founder, Cremation Strategies & Consulting.

Lemasters

Learn how to operate a crematory retort properly and effectively and limit the liability for you and your company. This extensive training curriculum includes an explanation of professional & incinerator terminology; a discussion on the principles of combustion and incinerator criteria & design; an in-depth look at the basics of operating cremation equipment and their general maintenance and how to troubleshoot common problems; an overview of cremation and its impact on the environment; examples of standard crematory forms and the importance of record keeping; proper steps for identification; exposure control, and liability concerns and risk management.

Stuart

Attendees will receive a comprehensive Operations Manual covering all aspects of crematory operation and maintenance and are required to pass an online, open-book test to receive their certification.

Lunch provided by
